

5NTC Rabbit pAb (AR20073)

Key Features

Host Species:	Rabbit
Reactivity:	Human, Mouse
Applications:	WB, ELISA
Isotype:	IgG
MW:	61kD (Observed)

Recommended Dilution Ratios

WB:	1:500-2000
ELISA:	1:5000-20000
Storage	-15°C to -25°C/1 year (Do not lower than -25°C)

Basic Information

Clonality	Polyclonal
-----------	------------

Immunogen Information

Specificity	5NTC Polyclonal Antibody detects endogenous levels of protein.
-------------	--

Target Information

Gene name	NT5C2 NT5B NT5CP PNT5
-----------	-----------------------

Protein Name	Cytosolic purine 5'-nucleotidase (Cytosolic 5'-nucleotidase II)
--------------	---

Organism	Gene ID	UniProt ID
Human	22978	P49902
Mouse		Q3V1L4

Cellular Localization	Cytoplasm, cytosol .
-----------------------	----------------------

Tissue specificity	Widely expressed.
--------------------	-------------------

For Research Use Only
