

Sodium Potassium ATPase Rabbit mAb (AbFluor 555) (AR1843)

Key Features

Host Species:	Rabbit
Reactivity:	Human, Mouse, Rat
Applications:	IF
Isotype:	IgG, Kappa
MW:	113kDa (Calculated) 100kDa (Observed)
Conjugate:	AbFluor 555

Recommended Dilution Ratios

IF:	1:200-1000
-----	------------

Storage

-15°C to -25°C/1 year (Do not lower than -25°C)

Basic Information

Clonality	Monoclonal
-----------	------------

Immunogen Information

Specificity	Endogenous
-------------	------------

Target Information

Gene name	ATP1A1
Protein Name	Sodium/potassium-transporting ATPase subunit alpha-1 (Na(+)/K(+) ATPase alpha-1 subunit) (Sodium pump subunit alpha-1)

Organism	Gene ID	UniProt ID
Human		P05023; P50993; P13637; Q13733
Mouse	24211	P06685

Cellular Localization	Membranous
-----------------------	------------
