

Ki-67 Rabbit mAb (AR1851)

Key Features

Host Species:	Rabbit
Reactivity:	Human
Applications:	WB,IHC,ELISA
Isotype:	IgG1,Kappa
MW:	359kD (Calculated)

Recommended Dilution Ratios

WB:	1:500-1000
IHC:	1:100-500
ELISA:	1:5000-20000

Storage

-15°C to -25°C/1 year (Do not lower than -25°C)

Basic Information

Clonality	Monoclonal
-----------	------------

Immunogen Information

Specificity	Endogenous
-------------	------------

Target Information

Gene name	MKI67
Protein Name	Ki 67

	Organism	Gene ID	UniProt ID
	Human	4288	P46013
Cellular Localization	Nuclear		
Tissue specificity	Nuclear		

For Research Use Only
