

## PPP1R1C Rabbit pAb (AR20059)

### Key Features

|               |                   |
|---------------|-------------------|
| Host Species: | Rabbit            |
| Reactivity:   | Human, Mouse      |
| Applications: | IHC, IF, ELISA    |
| Isotype:      | IgG               |
| MW:           | 12kD (Calculated) |

### Recommended Dilution Ratios

|         |   |
|---------|---|
| IHC:    | 1:100-300                                       |
| IF:     | 1:50-200  |
| ELISA:  | 1: 10000  |
| Storage | -15°C to -25°C/1 year (Do not lower than -25°C) |

### Basic Information

|           |            |
|-----------|------------|
| Clonality | Polyclonal |
|-----------|------------|

### Immunogen Information

|             |  |
|-------------|--|
| Specificity | PPP1R1C Polyclonal Antibody detects endogenous levels of PPP1R1C protein |
|-------------|--|

### Target Information

|           |         |
|-----------|---------|
| Gene name | PPP1R1C |
|-----------|---------|

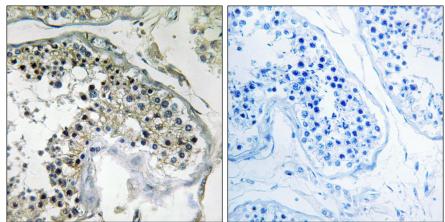

|              |   |
|--------------|---|
| Protein Name | Protein phosphatase 1 regulatory subunit 1C |
|--------------|---|

| Organism | Gene ID | UniProt ID |
|----------|---------|------------|
| Human    | 151242  | Q8WVI7     |
| Mouse    | 75276   | Q8BKK4     |

|                       |           |
|-----------------------|-----------|
| Cellular Localization | Cytoplasm |
|-----------------------|-----------|

|                    |                        |
|--------------------|------------------------|
| Tissue specificity | Heart, Skeletal muscle |
|--------------------|------------------------|

## Validation Data

Immunohistochemistry analysis of paraffin-embedded human testis tissue, using PPP1R1C Antibody. The picture on the right is blocked with the synthesized peptide.
