

AEBP1 Rabbit pAb (AR20105)

Key Features

Host Species:	Rabbit
Reactivity:	Human, Mouse, Rat
Applications:	WB, ELISA
Isotype:	IgG
MW:	127kD (Observed)

Recommended Dilution Ratios

WB:	1:500-2000
ELISA:	1:5000-20000

Storage	-15°C to -25°C/1 year (Do not lower than -25°C)
---------	---

Basic Information

Clonality	Polyclonal
-----------	------------

Immunogen Information

Specificity	AEBP1 Polyclonal Antibody detects endogenous levels of protein.
-------------	---

Target Information

Gene name	AEBP1 ACLP
-----------	------------

Protein Name	Adipocyte enhancer-binding protein 1 (AE-binding protein 1) (Aortic carboxypeptidase-like protein)
--------------	--

Organism	Gene ID	UniProt ID
Human	165	Q8IUX7
Mouse		Q640N1
Rat		A2RUV9

Cellular Localization	[Isoform 1]: Secreted .; [Isoform 2]: Cytoplasm . Nucleus .
-----------------------	---

Tissue specificity	Expressed in osteoblast and visceral fat.
--------------------	---
